ROCKING HORSE COUPLER SKID

CATALOGUE NO.: RHS-LD01

The Light Duty Rocking Horse Skid is designed to support both cable couplers and junction boxes. The advantages of using such a system are:

- Provides visibility of couplers and junction boxes
- Meets mine regulation requirements of elevating cable couplers.
- Protects equipment from mud, rock and debris.
- Provides coupler rollover protection.
- Reinforcing ensures that skids are light-weight, yet rugged enough for mine duty.
- Models available include light duty and heavy duty (RHS-HD01).

The RHS-LD is fabricated from 2.0" thin walled steel tubing and is designed to be handled by hand.
