# HEAVY DUTY ROCKING HORSE SKID COMPLETE WITH STINGER CLAMPS AND JUNCTION BOX MOUNTING BRACKETS

CATALOGUE NO. : RSHSD-01/F14W-XX

- Custom manufactured skid elevates your junction boxes off the ground while making your cable's connection points clearly visible to maintenance personnel and site traffic.
- Strain relief clamps on each end prevent cable from being damaged when pulled from junctions. Internal rubber liners are sized specifically to your cable diameter.
- Heavy duty towing hooks allow for the skid to be pulled to different locations without putting stress on your actual cab

## CATALOGUE NO.: RHSHD-01/F14W-XX

- Positioning of center brackets will accommodate all junction boxes of North American manufacture
- Cable stands can be colour coded as per customer's specification for easy identification.

**Heavy Duty Rocking Horse Skid with Strain Relief shown in service in the Alberta Oil Sands. (Also shown: UCS30/Orange, Universal Cable Stands)**
