

# Product Data Sheet

## Cable Reeling Utility Trailer

This self-contained powered cable reeler is designed to carry 4 reels of electrical distribution type cable for emergency dispatch. The reeling units are securely mounted on a heavy duty steel chassis designed to be towed behind a 1 ton (or larger) vehicle. The diesel engine provides sufficient power to reel all 4 reels at once, and is controlled by the handheld remote control. Each reeling unit has a built-in disc brake, which is spring loaded to ensure reels don't rotate during transport.

### Technical Specifications:

- 45 HP diesel hydraulic power pack to operate 4 reeler motors, brakes, and hydraulic stabilizing jacks simultaneously.
- Tandem dual axles, each rated to 10,000 lbs with electric braking system
  - 12,000 lb front tongue jack
  - Hand held remote with 50 foot cable
- Cable reel dimensions: 48" diameter x 36" wide
- Each cable reel is designed to hold 100m of 25kV, 2/0 single phase power cable.
  - Maximum payload per reel: 2500 lbs
- Trailer dimensions: 26 feet long with a deck width of 8 feet and overall height of 8 feet

Trailer includes storage cabinets and tool box for storing all equipment, making this reeler completely self contained.

Shown with optional cable reel covers
