HIGH VOLTAGE CABLE HANDLING HOOKSTICKS

Cable handling hooksticks are used in the mining industry as a method of handling energized electrical cable supplying draglines, shovels, drills and other equipment.

Cable voltages covered are from 600V through 25,000V.

Cable handling hooksticks are designed with a fibreglass insulating shaft, a molded D-type handle and either a 3" or 4" diameter single hook or double, reversed hook for cable handling.

Each assembly is:

- **tested to 60kV DC**
- **lightweight**
- **available lengths: 24", 36", 48", 60"**
(36" length is standard)

To Order:

Cat. No.: CHS-1-300

3" single hook, 36" long shaft, D handle
(shown on right in picture)

Cat. No.: CHS-1-400

4" single hook, 36" long shaft, D handle

Cat. No.: CHS-2-300

3" double reversed hook, 36" long shaft, D handle (shown on left in picture)

Cat. No.: CHS-2-450

4 1/2" double reversed hook, 36" long shaft, D handle
