# Electrical Posi-Pins for use with Posi-Clamps

Cat No.: Copper Posi-Pins (CUSP-XX\*) / Brass Posi-Pins (BRSP-XX\*)

- Available in either Copper or Brass material
- Available with either mechanical or solder style connection

Posi-Pins, used with Posi-Clamps, provide a speedy, safe and fool-proof method of connecting cables to power supply equipment such as junction boxes and transformer boxes.

Posi-Pins are made to fit cable conductors accurately. Each phase, ground and ground check pin has a different pin diameter in order to correctly connect to the proper mating cable phase, ground or ground check with in the equipment.

*\*Sized according to pin diameter and size of conductor*

Copper Posi-Pins: (Sub 'BR' for 'CU' in p/n)
