

Product Data Sheet

RHSLD-X, Light Duty Rocking Horse Skid

Part Number: RHSLD-01/CPB/*
Rocking Horse Skid, Light Duty, with coupler protection box mounted.

Part Number: RHSLD-01/*
Rocking Horse Skid, Light Duty for use with mated couplers or inline connection

The MCS Light Duty Rocking Horse Skid is designed to support both cable couplers or inline connectors (junction boxes). Light duty rocking horse skids are also available with coupler protection boxes to safeguard your connection points from hazards of minesite debris and weather conditions.

*Standard available colour is high visibility orange.

Advantages of the MCS Light Duty Rocking Horse Skids

- Elevated connection points provide visibility of couplers and junction boxes for maintenance personnel and minesite traffic
- Meets minesite regulation requirements of elevating cable couplers
- Protects equipment from mud, rock, and debris
- Reinforcing ensures that skids are light-weight yet rugged enough for minesite duty
- Light-weight structure is designed to be moved on minesite by hand
- Provides coupler rollover protection.
