

# Skid Mounted Junction Boxes, 8kV or 15kV

An alternate connection system to electrical couplings, each 8kV or 15kV Skid Mounted Junction Box is CSA certified and features a Nema 4 rated enclosure manufactured on a Heavy Duty Rocking Horse Skid for durability and protection of cable connection points. Custom manufactured to suit individual customer requirements, each 8kV or 15kV Skid Mounted Junction Box features floor mounted insulator and buss bar assemblies to accommodate Posiclamp to Posipin or terminal lug direct to buss bar connection. Available entrance options include strain relief, permanent coupler mounting, or split entrance plates as required by each operation. Standard features include electrical hotstick, roller arm microswitches for added operator safety, and rugged tow hooks for easy relocation on minesite operations.
